Technical Materials

## **company history**

Zedtex Australia Pty Ltd and Zedtex New Zealand Ltd are part of the Smith Uren Group of companies specialising in the sourcing and distribution of technical, industrial, domestic and commercial textiles and related products.

Smith Uren was established in 1965 and has built long term strategic partnerships in Asia, Europe, USA and Africa. The group is accredited with AS/NZS ISO 9001:2008.

## **products**

We specialise in the following products:

- Ballistic and Composite Fabrics
- Non-wovens for industrial and domestic
- Industrial Yarns for weaving, braiding and knitting
- PET Sheeting and Film for packaging
- Filament and Spun Yarns for weaving, circular and warp knitting, industrial, commercial and apparel applications
- Woven Industrial Products
- Fibreglass for plasterboard
- Load Restraint and Heavy Lifting products
- Staple Fibres for blow filling, carding, spinning and needling
- Thermoplastic, Hot Melt & Powder Adhesives

In addition to the above, we specialise in sourcing and development of all textile related products.

## **our markets**

We have offices in Australia, New Zealand and South Africa supplying products to manufacturers in various industries such as industrial marine, mining, automotive, construction and defense.

## **supply chain**

We have long established relationships throughout Asia, Europe and USA. We regularly meet with our suppliers and are happy to accompany our customers on factory visits.

## value adding

We provide a comprehensive range of services so our customers can rely on us to smoothly handle their purchases.

With more than 40 years of international trade experience we have sophisticated systems to handle all aspects of the supply chain. We employ specialist production and logistic coordinators to ensure goods are delivered on time, in full, to spec.

Our policy is to have the trading, coordination and finance departments operate as one cohesive team to successfully achieve our objectives.

We provide market information, product development and sourcing expertise, flexible terms, after sales service and detailed status reports.

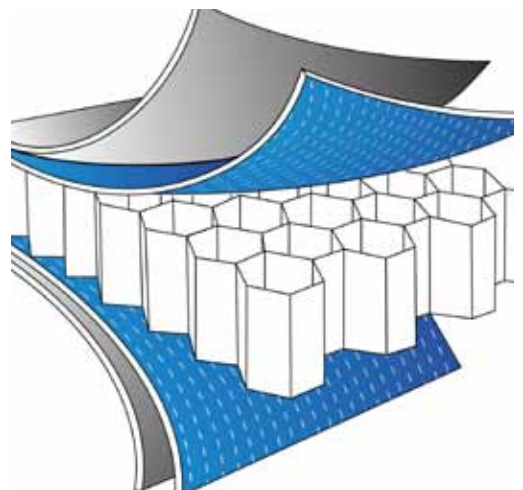

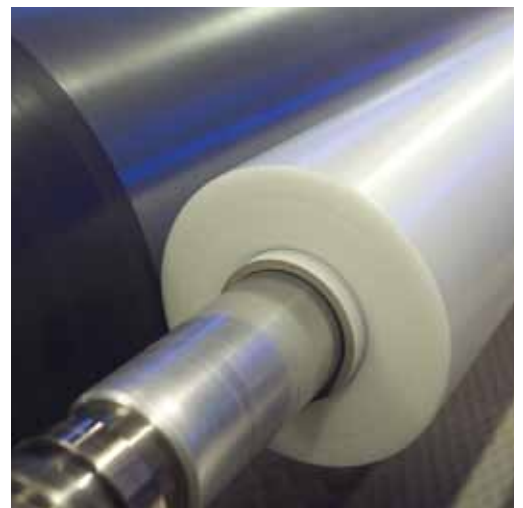

We recognise that any company in the supply chain needs to add tangible value to the end customer. Zedtex does this through the following means:

- Product Development
- Sourcing
- Strong Supplier Relationships
- Collective Buying Power
- Production, Logistic and Distribution Management
- Quality Controls
- Finance
- Accountability

## trading terms

While Zedtex has several agencies we also offer our customers a wide range of purchasing options. We are able to offer flexible financial arrangements and supply solutions to meet our customer's requirements.

All products supplied through Zedtex are quality assured giving our customers piece of mind.
